

Greenhouse Gases and Animal Agriculture Conference

GGAA2010
3 - 8
October
2 0 1 0

**Greenhouse Gases and
Animal Agriculture Conference**
Banff • Canada
www.GGAA2010.org

Banff, Canada

JOIN US in the Canadian Rocky Mountains for this international conference where leading scientists from around the world will discuss advancements in the science of reducing greenhouse gases in livestock production.

We hope to see you there in October 2010.

Sean McGinn, Conference Chair

4th International Conference
on Greenhouse Gases and
Animal Agriculture

Program at a glance:

Sunday, Oct 3

- Four workshops -- measuring/modelling/biogas/methanogenesis

Monday, Oct 4

- Role of livestock production in GHG issues -- the big picture
- Nitrous oxide and methane losses from livestock manure -- atmospheric emissions and biogas capture

Tuesday, Oct 5

- Measurement of GHG from livestock production
- Mitigation strategies for enteric methane

Wednesday, Oct 6

- Tour -- "Receding glaciers and climate change"

Thursday, Oct 7

- Microbial ecology of ruminal methanogenesis
- Modelling livestock GHG emissions

Friday, Oct 8

- LEARN (Livestock Emissions and Abatement Research Network) meeting
